

### Competitions

The Regina Photo Club holds several in-club competitions during the program to help sharpen the photographer's skills. Our new categories are designed both to fit the varied skill levels of our members as well as embracing the changes that digital photography has introduced and sharpening the skills of classic techniques.

#### Field Trippers

## 2011/12 Program Year

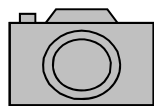

The **Diverse World Around Us** is the theme for this year. It is apparent around us that the world around us has many facets to appreciate. As photographers, we want to explore our world and see it for all the myriad pleasures the world has for us.

### People's Choice

The highly popular People's Choice will be in full swing again this year. Please bring a photograph or two to each meeting that showcases your work. They can be images that have inspired you, a new technique that you have just tried, or subject matter that is near and dear to your heart. The goal of the People's Choice is to appeal to your fellow club members and for you to be inspired by others. At the end of the year, we will select the People's Choice for the year from the images selected during each regular meeting.
